Subject: Rosemont - having a management level discussion on timing and plans as partner agencies

Hi Linda: Thanks for answering many of my questions related to ADEQ actions and the Rosemont project. I expect you have had a call with USFS (Mindy) following our discussion with them yesterday. I am just realizing (in my old age) that it would be useful to touch base on the critical path forward for several of the pieces ADEQ has on its plate (401 and antideg analysis) and how it relates to actions on our plate (404 and mitigation, NEPA (at least the H20 piece).

We (Jason Brush and I) would propose a quick 30 minute discussion between Mike and Jane to ensure we are all aware of your plans for moving forward and how they interrelate.

Scheduling may be challenging, so I will toss out some dates.

November 5th, 1-2 pm or after 3:30 pm

November 6th, anytime between 9:30 am and 2:30 pm or after 3:30

Please let me and/or Jason know if any of these dates or times will work and then we can

schedule on Mike and Jane's calendars.

I will be in Nevada meeting with NDEP, the 29-31st.
